

## Florida test-day review

CAR / LEARNER PERMIT • WRITTEN KNOWLEDGE PREPARATION

**Your exam:** 50 questions; at least 40 correct (80%). Our timer is a training setting.

**Recall first, then check.** Cover each point and explain it in your own words. Read the official handbook for full rules and exceptions.

- 01.** A stopped school bus with its stop signal displayed requires traffic in both directions to stop on an undivided road.
- 02.** Painted lines or a center turn lane do not create the opposite-direction school-bus exception.
- 03.** Opposing bus traffic is exempt when separated by a raised median, physical barrier, or unpaved median at least five feet wide. Traffic behind the bus still stops.
- 04.** Passing a bicycle requires at least three feet. If you cannot safely provide clearance, remain behind.
- 05.** Signal continuously for at least the last 100 feet before turning. Check that the movement is safe.
- 06.** Move over safely for protected roadside vehicles, including a disabled car displaying hazard lights.
- 07.** If moving over is unsafe: reduce speed by at least 20 mph below a posted limit of 25 mph or more; at a posted limit of 20 mph or less, travel at 5 mph.
- 08.** An approaching emergency vehicle is a different situation: yield, pull to the nearest edge clear of an intersection, and stop.
