

New Jersey test-day review

CAR / LEARNER PERMIT • WRITTEN KNOWLEDGE PREPARATION

Your exam: 50 scored questions; at least 40 correct (80%). Our timer is a training setting.

Recall first, then check. Cover each point and explain it in your own words. Read the official handbook for full rules and exceptions.

- 01.** School bus with flashing red lights on an undivided road: stop at least 25 feet away.
- 02.** Painted center lines do not create a divided-road exception. On the opposite side of a safety island or raised median, slow to 10 mph.
- 03.** Specific school-front exception: when a school bus stops directly in front of a school to load or unload children, passing from either direction is limited to 10 mph.
- 04.** Parking clearances: hydrant 10 feet; intersection crosswalk 25 feet (the manual notes an alley exception); stop sign 50 feet; railroad crossing 50 feet.
- 05.** Do not double-park or park in a bus stop zone or in front of a public or private driveway.
- 06.** Handheld phone or texting-device use while driving is a primary offense. Hands-free use is still distracting and strongly discouraged.
- 07.** The knowledge-test passing score is 40 of 50. Practice the reasons behind each answer, not answer positions.
- 08.** For permits issued on or after February 1, 2025, applicants under 21 need 50 supervised practice hours, including 10 during darkness, with the required certification.
